

# IMPACT REPORT

JULY 2017 - JUNE 2018

## A STORY OF TRANSFORMATIONAL CHANGE

Over the last 12 months, FPA India's programmes, to get girls back to school, impacted thousands of young people positively.

With its participation in the **TATA Mumbai Marathon 2018**, FPA India was looking to impact one of the most important segments of the population—adolescents and young adults. The theme was **'Let's Get Girls Back to School'**. We delivered a comprehensive programme which included life skills training through the 'Adolescent Education Programme Plus (AEP+)', distribution of sanitary napkins, tackling anaemia in school-going girls, and providing outreach-based health services.

<p>Reached over <b>107,000</b> young people</p> <p><b>27,701 girls</b> completed the programme</p>	<p>Reached <b>61,906</b> out-of-school young people</p> <p>Over <b>24,483</b> girls completed the programme</p>	<p><b>382</b> sessions on menstrual hygiene</p> <p>Sanitary napkins distributed to about <b>7,480</b> young girls and women</p>	<p><b>5,74,947</b> health services</p> <p><b>5,649</b> blood tests to detect anaemia</p> <p><b>3,234</b> services for supply of iron and folic acid tablets</p>

# WE LEFT OUR MARK ACROSS THE NATION!

We were able to take our programme to young people in 38 centres across the length and breadth of the country.

## THE BUILDING BLOCKS OF OUR PROGRAMME

- Create a network of **peer educators** to expand the programme
- **Strengthen systems and protocols** to deliver quality services and commodities
- **Enable community participation and response** to build ownership and leave a deeper impact over time

## HOW WE HELPED

Through our programmes that were supported by so many individuals and organisations, we ensured that:

- **Thousands of girls** could access **menstrual hygiene products** and information to help them attend school during periods
- **Thousands of girls** were able to do better at school after receiving **care for anaemia**
- **Nearly a lakh young people** underwent important **life skills training** and were imparted **adolescent health services**
