

WHO WE ARE & WHAT WE DO

Family Planning Association of India (FPA India) founded in 1949, is a national voluntary organization which pioneered the family planning movement in India.

Our **wide-range** of programmes on sexual and reproductive health and rights cover contraception, safe abortion, maternal, child and adolescent health, prevention and management of sexually transmitted & reproductive tract infections, cervical and breast cancer, sub-fertility and gender-based violence (GBV).

OUR MISSION

We are committed to advancing Sexual and Reproductive Health and Rights, Gender Justice, Diversity, and Inclusion for all, specially the marginalized and excluded; powered by sustainability and accountability, steered by young people.

OUR PARTNERS

WHY OUR WORK MATTERS

Inequities are widespread, and certain geographies, as well as the poor, the rural, the young, and the socially excluded are notably disadvantaged.
